

ULTRAFASST FIBRE ADDRESS DATASET SCHEMA

Version: 4

Updated: December 2019

DISCLAIMER:

Your receipt and use of this Address Data Set (ADS) is on the following terms:

- The ADS comprises Ultrafast Fibre Limited (UFF) data and licensed third party data which UFF is authorised to disclose to you.
- If you have a contract CoreLogic NZ Limited (CoreLogic) your rights and obligations in relation to any CoreLogic data contained in the ADS will be as per your CoreLogic contract.

You agree that:

- (a) a land parcel identified in the ADS may have more than one address which refers to that land parcel; and
- (b) an address recorded in the ADS may not be the same as the address used by the owner/occupier of that land parcel. Therefore, your use of the ADS does not relieve you of your obligation to make the necessary enquiries to determine the current status of a location and/or an address.

UFF makes no representations or warranties of any kind, express or implied, about the completeness, accuracy or reliability of the information contained in the ADS and UFF shall not be liable to you in respect of the same and your use of the ADS.

Attribute Name	No Change / New / Removed	Description	Values
